

Health Savings Plans

Call (800) 578-5024 to enroll!

One Credit Union understands and shares your concerns about healthcare costs. We are here to help you save for those costs and manage healthcare expenses by providing Health Savings Accounts (HSAs).

A Health Savings Account provides eligible individuals who participate in a High Deductible Health Plan (HDHP) the opportunity to save for future medical expenses tax-free.

A One CU Health Savings Account is easy to use - it acts just like a checking account for your health expenses. Better yet, it pays you a higher rate of interest!

For more information and answers to common questions concerning HSA accounts, visit the [U.S. Department of the Treasury](#).
