One Credit Union Member Newsletter | Fall 2020

President's Pen

I am delighted to tell you that our new website will be going live in October. The new site makes it even easier, and safer, to do business with One Credit Union. In the wake of the pandemic, we have all been challenged to find new ways to do business and stay safe while doing so. One of the priorities of the new design was to find more ways to help members who may not be able to or have the desire to come into the branches to conduct business. With secure forms and live chat, our goal is to be just as personable, friendly and helpful as if you walked through the doors of one of our branches. Combined with the streamlined Online Banking System upgrade released in April, our digital delivery of services has had a major overhaul in 2020!

We do look forward to when we can all be together again. We miss seeing our members face-to-face. Heck we miss seeing our teammates face-to-face. With just over a third of our team working remotely, it added a new dimension, and challenge, to our efforts to be "Together, we're One" - and it's a challenge we work through every day to achieve, without losing a step in our service to you, our member owners.

Thank you again for being a member. Stay safe and be well.

Our new website will roll out in October. Our goal was to make the site a "digital branch" with features like improved search and live chat to help guide you to get what you need as quickly as possible. The site is mobile friendly, with clean navigation that collapses for ease of viewing on any device. And most importantly, the Online Banking login is still in the top right hand corner of every page, for your ease and convenience!
